Summary

Entry-Level **Data Analyst** skilled in **SQL, Python, Excel, Tableau, and Power BI**, with experience in data collection, data cleaning, exploration, visualization, and dashboard design. Proven ability to turn complex datasets into clear, actionable insights through **portfolio projects** and **certified** training. Detail-oriented, analytical, and collaborative, with a passion for enabling smarter, data-driven decisions.

Skills

- **Python**
  Pandas, Matplotlib,
  Numpy, BeautifulSoup, os
- **Excel**
  Formulas, Vlookup,
  Conditional Formatting,
  Pivot Tables, Charts
- **SQL (**MySQL**)**
- **Tableau**
- **Power BI**
- **R**

Projects

Data Analysis and Interpretation

Data Analysis & Visualization

- **MySQL Data Cleaning** – Cleaned and standardized raw data, removed duplicates, optimized for BI tools.
- **MySQL Exploratory Data Analysis** – Analyzed layoffs by company, country, and industry using grouping and ranking functions.
- **Excel Bike Sales Dashboard** – Built Pivot Table dashboards to visualize customer demographics and purchasing behaviour.
- **Tableau Airline Dashboard** – Designed interactive dashboards to analyze fare trends, route efficiency, and geographic insights.
- **Power BI Survey Dashboard** – Created interactive dashboards to visualize workforce roles, salaries, and satisfaction levels.

Python Automation & Analytics

- **BMI Calculator** – Developed a program with input validation and health risk classification.
- **File Sorter Automation** – Automated file organization by type to improve directory management efficiency.
- **Web Scraping (Flipkart & Wikipedia)** – Built scrapers with BeautifulSoup to extract product and company data across multiple pages.
- **Cryptocurrency API Analytics** – Integrated real-time crypto data and visualized time-series trends using Pandas and Matplotlib.

Education

Bachelor of Science in Computer Science, Physics
Maharani Cluster University, Palace Road, Bangalore Graduated:2026

Internship Experience

Data Analyst Intern
Cloud Institution, feb-april 2026

- Worked on data cleaning, data preparation and basic reporting tasks.
- Supported analysis of business data and helped present findings in a clear format.

Bootcamp Training

Certified Data Analyst Bootcamp

- Completed intensive training covering SQL, Python, Tableau, Power BI, and Excel.
- Worked on real-world projects: data cleaning, dashboard building, and automation scripts.
- Developed a portfolio showcasing end-to-end analytics workflows.
- Earned certification demonstrating readiness for entry-level data analyst roles

Certifications

- Cloud Institution Certified Data Analyst
- Bootcamp Certified Data Analyst
